Contents

Dedication VII

Prefaces

William Back (Reston, Va., U.S.A.) and D.A. Stephenson (Madison, Wis., U.S.A.) . . . VIII
Keros Cartwright, Chairman, Hydrogeology Division, Geological Society of America (Urbana, Ill., U.S.A.) VIII

Forewords

Harold E. Thomas (Woodside, Calif., U.S.A.) and Hugh A. Shamberger (Carson City, Nev., U.S.A.) IX
Burke's academic activities
Ven Te Chow (Urbana, Ill., U.S.A.). XI

The Meinzer era of U.S. hydrogeology, 1910—1940
George B. Maxey (†, Reno, Nev., U.S.A.). 1

Hydrologic Modeling and Groundwater Flow Systems

Hydrogeology of glacial-terrain lakes, with management and planning applications
S.M. Born (Madison, Wis., U.S.A.), S.A. Smith (Tempe, Ariz., U.S.A.) and D.A. Stephenson (Madison, Wis., U.S.A.). 7
The role of groundwater in storm runoff
M.G. Sklash (Windsor, Ont., Canada) and R.N. Farvolden (Waterloo, Ont., Canada). 45
Hydraulic potential in Lake Michigan bottom sediments
K. Cartwright, C.S. Hunt, G.M. Hughes and R.D. Brower (Urbana, Ill., U.S.A.) . . . 67
Unsteady streamflow modeling guidelines
V.L. Gupta (Reno, Nev., U.S.A.), S.M. Afaq (Toronto, Ont., Canada), J.W. Fordham and J.M. Federici (Reno, Nev., U.S.A.) 79
Pore size distribution, suction and hysteresis in unsaturated groundwater flow
C.M. Case and A. Welch (Reno, Nev., U.S.A.) 99
Contribution of groundwater modeling to planning
J.E. Moore (Reston, Va., U.S.A.) 121
Application and analysis of a coupled surface and groundwater model
A.B. Cunningham (Bozeman, Mont., U.S.A.) and P.J. Sinclair (Reno, Nev., U.S.A.) 129
Progress in analytical groundwater modeling
W.C. Walton (Twin Cities, Minn., U.S.A.). 149
Consideration of total energy loss in theory of flow to wells
R.L. Cooley and A.B. Cunningham (Reno, Nev., U.S.A.). 161
Measurement of fluid velocity using temperature profiles: experimental verification
K. Cartwright (Urbana, Ill., U.S.A.). 185
Utility of a computerized data base for hydrogeologic investigations, Las Vegas Valley, Nevada
R.F. Kaufmann and H.N. Friesen (Las Vegas, Nev., U.S.A.). 195
Regional carbonate flow systems in Nevada
M.D. Mifflin and J.W. Hess (Las Vegas, Nev., U.S.A.) 217
Groundwater flow systems in the western phosphate field in Idaho
D.R. Ralston and R.E. Williams (Moscow, Idaho, U.S.A.) 239

Geological Aspects of Hydrogeology

Cooling mechanisms and effects on mantle convection beneath Antarctica
L.D. McGinnis (De Kalb, Ill., U.S.A.) 265
Major geochemical processes in the evolution of carbonate—aquifer systems
B.B. Hanshaw and W. Back (Reston, Va., U.S.A.) 287
Effects of karst and geological structure on the circulation of water and permeability in carbonate aquifers
V.T. Stringfield, J.R. Rapp and R.B. Anders (Reston, Va., U.S.A.) 313
Evaluation techniques of fractured-rock hydrology
H. LeGrand (Raleigh, N.C., U.S.A.). 333
Secondary permeability as a possible factor in the origin of debris avalanches associated with heavy rainfall
A.G. Everett (Rockville, Md., U.S.A.) 347

Hydrogeochemistry

Seasonal chemical and isotopic variations of soil CO_2 at Trout Creek, Ontario
E.J. Reardon (Waterloo, Ont., Canada), G.B. Allison (Glen Osmond, S.A., Australia) and P. Fritz (Waterloo, Ont., Canada) 355
Arsenic species as an indicator of redox conditions in groundwater
J.A. Cherry (Waterloo, Ont., Canada), A.U. Shaikh, D.E. Tallman (Fargo, N. Dak., U.S.A.) and R.V. Nicholson (Waterloo, Ont., Canada) 373
Modern marine sediments as a natural analog to the chemically stressed environment of a landfill
M.J. Baedecker and W. Back (Reston, Va., U.S.A.). 393
Time-dependent sorption on geological materials
P.R. Fenske (Reno, Nev., U.S.A.). 415
The volume-averaged mass-transport equation for chemical diagenetic models
P.A. Domenico and V.V. Palciauskas (Urbana, Ill., U.S.A.) 427

Economic Hydrogeology

Problems of large-scale groundwater development
S. Mandel (Jerusalem, Israel) 439
The impacts of coal strip mining on the hydrogeologic system of the Northern Great Plains: case study of potential impacts on the Northern Cheyenne Reservation
W.W. Woessner (Las Vegas, Nev., U.S.A.), C.B. Andrews and T.J. Osborne (Lame Deer, Mont., U.S.A.). 445
Connector wells, a mechanism for water management in the Central Florida Phosphate District
P.E. LaMoreaux (Tuscaloosa, Ala., U.S.A.). 469
Simulated changes in potentiometric levels resulting from groundwater development for phosphate mines, west-central Florida
W.E. Wilson and J.M. Gerhart (Tampa, Fla., U.S.A.). 491
Depressurization of a multi-layered artesian system for water and grout control during deep mine-shaft development
W.M. Greenslade (Phoenix, Ariz., U.S.A.) and G.W. Condrat (Salt Lake City, Utah, U.S.A.) 517
Geothermal well testing
T.N. Narasimhan and P.A. Witherspoon (Berkeley, Calif., U.S.A.). 536

Epilogue

Groundwater: new directions — Where we've been and where we're going
R.G. Kazmann (Baton Rouge, La., U.S.A.). 555
